SUMMARY

Recent IT graduate seeking a Frontend Intern position. I have a solid foundation in HTML, CSS, and JavaScript, with hands-on experience using React in personal projects. I also have basic knowledge of Node.js, RESTful APIs, and databases, and I am eager to improve my Backend logic. I am a hardworking, growth-oriented, and proactive learner who is always ready to support the team.

EDUCATION

Associate Degree in Information Technology

07/2023 - 09/2025

FPT Polytechnic College

- Major: Web Development
- GPA: 3.55

EXPERIENCE

WordPress Developer Intern

04/2025 - 08/2025

- Configured and managed WordPress sites; customized themes and plugins.
- Modified interfaces using HTML, CSS, and PHP; developed pages using Elementor/WooCommerce.
- Managed content, optimized on-page SEO, and assisted with website maintenance and updates.

FEATURED PROJECT

Personal Full-Stack E-commerce Project

- Description: Developed a complete food ordering and sales website system, managing the entire lifecycle from product viewing to order fulfillment.
- Tech Stack:
 - **Frontend:** HTML, CSS, JavaScript, React, NextJS / **Backend:** Node.js, Express.
 - Database: MySQL
- Key Contributions: I implemented the full-stack system, connecting the React/Next.js frontend and Node.js/Express backend via RESTful APIs, which established core E-commerce features (authentication, cart, ordering) and an admin management panel.

Group Full-Stack E-commerce Project

- Description: Developed the TeraShoes E-commerce website, featuring core functionalities such as product catalog, shopping cart, and order placement. A key focus of this project was the initial integration of AI functionality to support product recommendation and search.
- Tech Stack:
 - **Frontend:** HTML, CSS, JavaScript, React / **Backend:** Node.js, Express.
 - Database: MySQL/PostgreSQL.
- Key Contributions: My primary role involved contributing to the full-stack development, focusing on building the user-optimized UI with React, handling API integration, developing core e-commerce features (cart management, ordering), and actively participating in the initial research phase for AI model integration and team collaboration via Git/GitDesktop.

SKILLS

- Technical Skills: HTML, CSS, JavaScript, programming experience includes projects utilizing PHP and modern frameworks like ReactJS and Next.js. I also possess foundational knowledge of C, C++, and the Angular framework, and have practical experience in website deployment..
- Intermediate level of proficiency in reading technical documentation.
- Effective team player with a high sense of responsibility and a strong drive for learning.
